

Important Information in Regards to your Long Distance Rates

TransWorld Network strives to offer reliable service at competitive rates. Over the years, TWN has taken steps to absorb any rate increases that are passed on to us from our vendors. Despite these efforts, our long distance undercarrier has recently notified us of a significant rate increase which will prohibit us from absorbing these costs further and we will have to increase our rates.

Rate changes will take effect October 1, 2009. To find out how this will affect your long distance bill, please contact customer service at 1-800-950-3015. We appreciate your business and look forward to continuing to serve your communication needs.
